HARDY LILIES

Since the introduction of the beautiful Regal Lily from China less than thirty years ago the interest in hardy lilies has increased tremendously and it can safely be said they are becoming the most popular of all hardy bulbs. By making only a moderate planting one may easily have lilies in bloom from June until October—what is more beautiful than a bouquet of cut lilies for the house?

Taking lilies generally, they require a bit more care

than some other garden plants, but one can easily learn the simple wants of the popular varieties and enjoy them in their own garden. Practically all lilies love leaf-mold. We have found that a mixture of peat, leaf-mold and sand has given excellent results with over twenty varieties. Most varieties prefer some ground cover at the base to protect the feeding roots from excessive heat. A mulch of peat 2 or 3 inches deep is beneficial at all times. Prices are for strong flowering size bulbs.

BEAUTIFUL CORAL LILIES

The absolutely indispensable hardy Siberian Coral Lily—a gem for the rock garden or border—should be in every garden! The bulbs we are offering are extra select three year old bulbs. Each bulb will produce from ten to fifteen waxy fragrant scarlet flowers in June.

Everyone who saw this charming lily

10 Extra select three year bulbs\$1.00
25 Extra select three year bulbs\$2.35

blooming in its glory in our gardens this summer admired it. You also can grow it in your garden regardless of where you live as it is perhaps the hardiest lily grown.

We all love a good bargain as well as beautiful fragrant flowers. Here we offer you both—order your Tenuifolium Lilies today.

50 Extra select three year bulbs\$4.50
100 Extra select three year bulbs\$8.50

New Tenuifolium Golden Gleam—This is the first break in color of the famous tenuifolium lily which it resembles in every respect but color. It is a glowing yellow-orange. A true companion to the scarlet tenuifolium. Large flowering bulbs. Each 35c; 3 for \$1.00.

5 Fortuni Giganteum—A much improved late flowering form of the Tiger Lily. When well established will grow 6 to 7 feet tall and carry from 25 to 30 bright orange, salmon reflexed flowers. Five blooming size bulbs for\$1.00

8 Double Tiger Lily—Lighter in color than the single form and blooming ten days later. A fine border lily. Eight nice blooming size bulbs for\$1.00

8 Single Tiger Lily—That majestic orange spotted lily of our grandmothers garden. Eight fine healthy blooming size bulbs for\$1.00

10 Red Elegans Lily—An excellent dwarf lily for the rockery or border. Very showy in large masses. Ten fine blooming size bulbs for\$1.00

All Season Lily Collection

If you desire lilies to bloom in your garden from early June to fall frost, you should have this collection. Your garden will be without lily blooms but a few days during the entire summer. All varieties are dependable and easily grown. Each variety will be labelled with cultural directions.

3 Red Elegans	3 Henryi
3 Single Tiger	3 Regal
3 Umbellatum Red	3 Tenuifolium
3 Superbum	3 Double Tiger
3 Golden Gleam	3 Willmottiae

30 Splendid blooming size bulbs for\$5.25
(Regular \$7.15 value)

10 Splendid blooming size bulbs for\$1.95
(Regular \$2.70 value)

A Family of Tigers

Dependable---Interesting---Permanent

The Tiger Lilies grow so luxuriantly and easily, are so dependable and come into bloom when other flowers are at a premium in August that they are well worth having. Admirable for mass effect as a well grown clump is hard to beat in the flower border. The three varieties offered cover a blooming season of three weeks.

3 Single Tiger
3 Double Tiger
3 Fortuni Giganticum

9 large Blooming Size Bulbs for
\$1.25

REGAL LILY

The Regal is perhaps the best of all Lilies—it startled the world when first introduced from China. Should be grown in every American garden.

The bulbs we are offering are splendid, healthy, disease free, and winter hardy. No better bulbs are obtainable anywhere regardless of price. If planted this fall, we will guarantee an abundance of bloom from each bulb next summer.

7—5 to 6 inch circumference bulbs	\$1.00
25—5 to 6 inch circumference bulbs	\$3.25
50—5 to 6 inch circumference bulbs	\$6.00
100—5 to 6 inch circumference bulbs	\$10.50

ELEGANS LILY

These hardy Japanese Lilies come in many types, forms, and colors and are adapted to planting in rockeries and perennial borders. They are of dwarf growth, early blooming, and of easiest possible culture. Very effective in large masses. We are listing the varieties which we think are the most outstanding in their respective colors. Plant in spring or fall 4 to 5 inches deep and 3 to 4 inches apart.

Leonard Joerg. Flowers upright cup shaped and of a rich bright apricot flushed scarlet. June blooming. Each 20c; 3 for 50c.

Prince of Orange. A very dwarf form with large solitary bright orange-red flowers on 8 to 10 inch stems. A delightful variety for the rock garden. Each 15c; 3 for 40c.

Red Elegans. Large upright cup-shaped flowers of bright crimson orange with black dots. Very free blooming and effective in large masses. June blooming. Height 15 to 18 inches. Each 15c; 3 for 40c.

CANADENSE

(Canadian Lily)

A very abundant native hardy lily. Stems growing from 2 to 4 feet tall carrying many graceful flowers in July. Color varies from red to orange yellow spotted brown. Loves shade and lots of moisture. Plant in spring or fall 3 inches deep. Each 20c; 3 for 50c.

LILY HENRYI

You Will Never Regret Planting This Lily

This grand lily often referred to as the Orange Speciosum is becoming universally popular and deservedly so. The graceful reflexed golden orange flowers are freely produced on strong stems in August. Possesses a strong constitution and an easy and dependable lily for northern gardens. Plan to plant this lily this fall while prices are low.

5 Large blooming size bulbs	\$1.00
10 Large blooming size bulbs	\$1.85
25 Large blooming size bulbs	\$4.00
50 Large blooming size bulbs	\$7.00

The Gorgeous Lily Willmottiae

Brilliant---Dependable---Hardy

This lily again proved to be the most outstanding of all red flowering lilies. There is nothing quite like this absolutely fine hardy lily. Multitudes of graceful vivid orange-red flowers in July. Was awarded First Class Certificate of Royal Horticultural Society.

4 Select blooming size bulbs	\$1.00
10 Select blooming size bulbs	\$2.25
25 Select blooming size bulbs	\$4.50
50 Select blooming size bulbs	\$8.00

UMBELLATUM

A very hardy lily native of Siberia of easy culture and succeeding under a wide range of conditions. The large and showy upright cup shaped flowers are very effective and colorful in the border. June and July flowering. Plant in spring or fall 5 to 6 inches deep.

Grandiflorum. Massive blooms of upright flowers which are six inches across. Color bright orange, flushed red and slightly spotted black. Blooming in July. Very robust. Height 3 to 4 feet. Each 25c; 3 for 60c.

Golden Fleece. A superb variety. Large umbellate heads of golden yellow flowers. Vigorous and very effective. A startling novelty. Fine flowering size bulbs. Each 75c; 3 for \$2.00.

Mahony. A very large glistening dark red with no orange tint. A very distinct variety possessing a strong constitution. Must be seen to be appreciated. Each 35c; 3 for \$1.00.

Umbellatum Red. A very hardy variety of unknown name. Of easiest possible culture. Orange-red flowers in upright umbels strongly resembling L. Elegans but larger. Flowers in June. Plant in spring or fall 5 to 6 inches deep. Height 24 inches. Each 15c; 3 for 40c.

SUPERBUM

(Turk's Cap Lily)

The most showy of all north American lilies. The strong stem will carry thirty or more handsome flowers of a bright reddish-orange with dark spots. Blooms in July. Plant in leaf-mold either in spring or fall about 4 inches deep. Each 25c; 3 for 60c.

30 Below Zero Lily Collection

This collection is made up of the ironclad varieties which have always withstood the ravages and bitter cold of our Minnesota winters in excellent shape. Includes a blooming range from June to August. Every one an easy variety for the beginner and absolutely hardy.

Northern Native Wild Flowers

5 **Anemone Patens** (pasque flower)—Our first flower of spring often found blooming before the last snow is gone. The Tulip-like lavender flowers are produced above tufts of finely cut foliage. Five large clumps for\$1.00

8 **Bellwort**—The fragrant bellworts are always admired with their bright golden-yellow drooping bells in early May. Height 12 inches. 8 Blooming size roots for\$1.00

10 **Bloodroot**—A popular native plant for the shady place. Seems to thrive almost anywhere. Ten strong size roots for \$1.00

6 **Closed or Bottle Gentian**—A most interesting flower blooming in September in rich moist soil. Derives its name from the terminal clusters of flowers that resemble bottles. 6 Blooming size plants for\$1.00

8 **Birdsfoot Violet**—A pretty violet well adapted to the sunny rockery producing large long stemmed flowers of the clearest blue and bloom over a long period. 8 Blooming size plants for\$1.00

10 **Hepatica**—A native of the easiest culture producing many lilac colored flowers in early spring before the leaves appear. Large plants with 6 to 8 flowering crowns. Ten for\$1.00

8 **Jack-In-The-Pulpit**—Interesting in the wild garden and of the easiest culture. Blooms in April and May. Eight large blooming size bulbs.\$1.00

10 **Maidenhair Fern**—The most graceful of all hardy ferns. Does well in moist shaded spots. Ten large clumps for\$1.00

8 **Mertensia (Virginia Bluebell)**—Perhaps the bluest and daintest of all spring blooming flowers. Does well planted under deciduous trees in partial shade. Eight plants for\$1.00

10 **Native Hardy Aster**.—We have selected the more desirable colors of these fine fall blooming plants including a range from deep purple to blue and lavender and white. We are offering these selected plants at Ten for\$1.00

8 **Nodding Trillium**—A strong growing trillium with large nodding white or pink flowers. Very free flowering and of easy culture. Eight large roots for\$1.00

10 **Phlox Divaricata**—A showy easily grown, free flowering native for the rock garden or the semi-shaded border. Multitudes of deep lilac colored flowers in spring. Ten large plants for\$1.00

8 **Solomen's Seal**—A very imposing plant with small greenish bell-shaped flowers and black berries suspended from the arching leaf stalk. Effective in groups in the wild garden. Eight large plants for\$1.00

4 **Yellow Lady Slippers**—The easiest of all native orchids to grow in your garden. The golden yellow slipper-like flowers blooming in May and June. Four blooming size plants for ..\$1.00

POPULAR WILD FLOWERS

This collection proved to be very popular with our customers last year that we are repeating it by request this year. If you are interested in wild flowers you should have this collection as every variety is easily grown in the average garden.

HARDY PHLOX

Bridesmaid. White changing to blush-white toward center with red eye. Strong and dependable grower.

Eclaireur. A brilliant rosy purple with lighter center. One of the best growers and without a doubt the best of its color. Height 26 inches.

Enchantresse. A strong, sturdy growing plant with massive heads of bright salmon-pink flowers. Much superior to Elizabeth Campbell.

Miss Lingard. The pure white everblooming phlox in constant bloom from June to October. Has absolutely no enemies or diseases as red spiders do not affect it.

Mrs. Jenkins. Pure white late flowering variety which is very sturdy and reliable. No other variety equals its free flowering habit.

Pink Beauty. New, really an everblooming pink Miss Lingard. Resembles that grand variety in every respect but color. A fine companion plant for the white as it has the same habit and flowering season. Color a bright Lilac-pink. Very free flowering.

Riverton Jewel. An excellent deep mauve with crimson center. Very showy and free flowering. Medium height. Very fine in large masses.

R. P. Struther. A very tall variety that is always popular. A bright rose carmine with distinct deep red eye. Charming in the border.

Thor. An old variety but still considered the best of its color. Strong sturdy grower with massive heads of deep salmon-pink overlaid with a scarlet glow. Very free flowering.

PRICES ON PHLOX 25c EACH; 3 of a kind 60c

DELPHINIUM

(Diener's Dreams of Beauty Strain)

The largest and most perfect strain of Perennial Delphinium so far produced. Perfectly hardy, sturdy, and disease resistant, little affected by black rot or mildew. Gorgeous spikes of large single, semi-double, and double flowers in all shades of blue. All colors iridescent and alive.

The plants we are offering are well grown 3 yr. old clumps which will make a splendid showing for you next summer.

Single plants 25c

6 for \$1.00

25 for \$3.75

Columbine Blue King—A much improved strain, the result of many years careful selection. The vivid deep blue flowers are very large with extra long spurs. The yellow stamens add a charming glow to the already beautiful flowers. If one loves blue columbine this strain leaves nothing to be desired. Strong 2 yr. old plants. Each 20c; 3 for 50c; 8 for \$1.00.

Platycodon (Balloon Flower)—The large blue bell shaped flowers add much to the garden during July and August when other flowers are scarce. Showy in the border and a good cut flower. Strong blooming size plants. Each 20c; 6 for \$1.00.

New Belladonna Delphinium

If you have had trouble making the tall hybrid delphinium thrive for you then try these two new English improved Belladonna hybrids. You must have these beautiful blues in your garden—they are almost everblooming and unsurpassed for cutting. The graceful bushy plants grow from 4 to 5 feet tall and are not at the mercy of every windstorm. The colors those heavenly azure blue. A grand improvement over the ordinary belladonna.

Cleviden Beauty—clear cambridge blue
Fanny Stormouth—brilliant light blue

Single Plants 25c

3 for 60c
